

XXXXXX, 2010

To: XXXXX
Senate of Canada

Dear Senator XXXX,

Like many Canadians, I have been watching with great interest the process of Bill C-311—the Climate Change Accountability Act. I was very encouraged to see our federal parties work across party lines to pass this important bill in the House of Commons. I am writing to you to ask that you do the same.

Canadians agree that climate change is the defining challenge of our time. Without urgent action, the consequences for our children and grandchildren will be dire. That is why we all have a responsibility to act. The Climate Change Accountability Act is Canada's best hope for science-based reductions to greenhouse gas emissions, as well as a mechanism to ensure these targets are met.

I respectfully encourage you and your Senate colleagues to pass Bill C-311 without delay. A majority of MPs representing a large majority of Canadians have shown the urgency of the situation by coming together and passing this bill. If we are going to put Canada back on track for a cleaner, greener future, the Senate must do the same. Canadians hope for nothing less.

Sincerely,

XXXXXX
